

One Platform For Total Posture Control

Find it. Fix it. Forget it.

The first platform to unify Device Hardening, Vulnerability Remediation, and AI Agent Governance - eliminating configuration drift and Shadow AI risks at scale, with zero disruption and instant rollback.

92%

Of Attacks Hit the Edge

Targeting local OS settings, browsers, and AI agents.

83%

Of Breaches Stem From Config Errors

Misconfigurations and drift leave the door wide open.

6 Months

Average Exposure Window

Manual remediation is too slow to close the gap.

Four Modules. Total Coverage.

Establish & Protect

Remedio Baseline

Enforce your **Golden Image** and harden OS configurations across all devices. Continuously eliminate **AI configuration drift**.

Unify & Neutralize

Remedio Fortify

Combine **Patch Management** and **Vulnerability Remediation** into one system. Automatically eliminate critical exposures across your entire estate.

Master Compliance

Remedio Govern

Achieve **dynamic and custom** compliance effortlessly. Enforce NIST, CIS, and MITRE standards plus every AI deployment policy.

Command AI & Software

Remedio Gate

Granular **App Control** over all software. **Remove** unwanted AI tooling, agents, and IDE plugins - neutralizing risky or unknown executables.

Trusted by the World's Top CISOs

“

Remedio gives us compliance, visibility, and remediation for 100% of endpoints and servers. All the time.

Jony Fischbein,
Global CISO, Check Point

“

Remedio gives us the ability to fix problems in our environments without impacting our operations; it's a real game-changer.

Michael Meis,
Associate CISO, KUHS

“

Remedio gives our team incredibly detailed visibility into our global computing environment.

Alexander Schuchman,
CISO, Colgate-Palmolive
